WORK EXPERIENCE

1. **Ideahub (Pvt) Ltd**, Sri Lanka, Australia (<http://www.ideahub.lk>) , Aug/2015 – **Present**

Chief User Experience Designer

As the Chief User Experience Designer at Ideahub, I lead a cross-functional team of 10 members, developing and executing UX/UI strategies aligned with business objectives. My role includes conducting user research, establishing UX processes, ensuring accessibility standards, and collaborating with project managers and developers to integrate UX/UI initiatives.

- Design Intuitive User Experiences for Mobile and Web based software applications.

- Provide creative direction/leadership to the UX Design and UI Engineering teams.
- Conduct comprehensive user research and analysis to understand user needs, behaviours, and preferences.
- Establish and refine methodologies and UX processes.
- Direct creative efforts and provide leadership to UX Design and UI Engineering teams.
- Mentor and develop User Experience Designers and User Interface Engineers.
- Design and manage usability testing processes.
- Ensure all designs meet accessibility standards, enhancing product usability for individuals with disabilities.
- Define and track key performance indicators (KPIs) to measure the success of UX/UI initiatives.
- Lead the prototyping and conceptualization of user experiences for software applications.
- Collaborate closely with project managers, developers, and business analysts to integrate UX/UI initiatives with the product development cycle.

2. **WSO2, Sri Lanka, USA** (<http://www.wso2.com>) , Aug/2014 – Aug/2015

Senior Team Lead – User Experience Design

As the Senior Team Lead – User Experience at WSO2, Sri Lanka, and USA, I led a 10-member team, developing and implementing UX/UI strategies, conducting user research, and providing creative direction for the WSO2 Product Suite.

- As the Senior Team Lead – User Experience at WSO2, Sri Lanka, and USA, I led a 10-member team, developing and implementing UX/UI strategies, conducting user research, and providing creative direction for the WSO2 Product Suite.
- Provided creative and strategic efforts for a UX Design and UI Engineering team of 10 members.
- Formulated and implemented UX/UI vision and strategy, ensuring alignment with organizational goals.
- Conducted in-depth user research and analysis to understand user needs, behavior, and preferences.
- Provided creative direction and visual design for the WSO2 Product Suite (WSO2 ESB, WSO2 API Manager, WSO2 API/App Cloud).
- Established and improved UX methodologies and processes.

- Mentored and guided the UX/UI teams.
- Designed and managed usability testing processes.
- Ensured compliance with accessibility standards to improve product usability for individuals with disabilities.
- Established and tracked KPIs to measure the effectiveness of UX/UI initiatives.
- Prototyped and conceptualized user experiences for software applications.
- Worked collaboratively with project managers, developers, and business analysts to integrate UX/UI initiatives with the product development cycle.

3. **Navantis Inc**, Sri Lanka, Canada (<https://www.navantis.com>) , Dec/2004 – Aug/2014

Lead – User Experience Design/ Enterprise Architect – User Experience Design

I led a cross-border team of 12 members, managed UX production resourcing, coordinated design with various teams, and provided wireframes and prototypes. I delivered web and mobile design services, conducted web technology research, and customized branding for Microsoft products. Additionally, I mentored and developed the UI team.

- Led a cross-border User Experience/UI Engineering team of 12 members in Sri Lanka and Canada.
- Managed production resourcing for organization-wide user experience-related requirements.
- Coordinated design requirements with cross-functional teams including Development, Quality Assurance, and Business Analysis.
- Provided wireframes and prototypes to meet design requirements.
- Delivered user experience and creative design services for web and mobile-based software solutions.
- Conducted research and development in web technologies and frameworks.
- Provided custom branding for Microsoft product suites such as SharePoint.
- Mentored and developed the UI team.

4. **Hitachi Digital Payment Solutions (former Interblocks Ltd)**, Sri Lanka (<https://www.hitachi-dps.com>) , Jun/2001 – Dec/2004

Web Designer

- Delivered high-fidelity visual designs for the company product suite.
- Collaborated with customers, product management, design, development, and quality assurance teams to set up product roadmaps and manage the delivery of creative artefacts.

5. **Lanka Internet Services Ltd**, Sri Lanka, Jan/1998 – Jun/2001

Customer Support Executive, Web Developer

- Designed websites and web application front-ends.
- Developed web applications using HTML, CSS, PHP, and PERL.
- Provided maintenance services for web servers and websites.
