PROFESSIONAL SUMMARY

AI-enabled Product Designer and UX Leader with 20+ years of experience delivering scalable digital products across FinTech, Banking, Government, Healthcare, and Enterprise domains globally.

Specialized in combining UX strategy, AI-assisted design, and rapid prototyping to validate concepts early, reduce product risk, and accelerate delivery. Proven ability to translate complex business requirements into intuitive, high-impact user experiences backed by data, experimentation, and user insights. Strong leadership in design systems, cross-functional collaboration, and mentoring, with hands-on capabilities in front-end engineering and modern AI design workflows. Hands-on experience in front-end development (React, Next.js, TailwindCSS) enabling seamless design-to-development execution.

Product Design, Service Design, UX Design, UI Design, AI-Assisted Design, Design Systems, User Research, Interaction Design, Usability Testing, Accessibility (WCAG 2.2), Prototyping, Figma, React.js, TailwindCSS, Agile, FinTech

CORE CAPABILITIES

UX, Product & Strategy

- UX Strategy & Product Thinking
- User Research, Personas, Journey Mapping
- Information Architecture & Interaction Design
- Design Systems & Accessibility (WCAG 2.2)
- Service Design & Service Blueprinting
- Data-driven UX (Analytics, A/B Testing, Heatmaps)

AI-Driven Design & Innovation

- AI-assisted UX design using generative AI tools (Figma AI, LLMs) for rapid prototyping
- Scope/Context engineering for design & requirements generation using Gen AI
- Netnography, AI-powered user research synthesis & insight extraction
- Generative UI concepts for early-stage validation
- Conversational UX & AI product design patterns
- Automation of design documentation & UX artifacts

Prototyping & Validation

- Low to High fidelity prototyping (Figma, Codex, Claude Code, Cursor IDE)
- Interactive prototypes for stakeholder validation
- Early concept validation using AI + clickable prototypes
- Usability testing & iterative design cycles

Technical & Tools

- Bridging UX and Engineering: Translating design concepts into production-ready front-end implementations
- Figma, FigJam, Adobe XD, Balsamiq
- React.js, Next.js, TailwindCSS, HTML, CSS, JavaScript
- Node.js, MongoDB, MySQL, MSSQL, PostgreSQL
- Claude Code, Codex, Cursor IDE
- Analytics: Hotjar, Microsoft Clarity

PRODUCTS & INNOVATION

LazyBA – Business requirement and prompt specification builder tool

Designed and developed a web-based platform to easily manage requirements documentation and accelerate product definition using AI.

PulseWall – AI-based user feedback analytics platform

Built an NLP-driven solution to analyze app reviews and generate actionable UX insights using sentiment analysis.

WORK EXPERIENCE

1. Ideahub (Pvt) Ltd, Sri Lanka, Australia (<http://www.ideahub.lk>), Aug/2015 – Present

Role: Chief Designer

Currently lead a cross-functional team of 10 members, developing and executing UX/UI strategies aligned with business objectives, predominantly for the Banking and FinTech industry. My role includes conducting user research, establishing UX processes, ensuring accessibility standards, and collaborating with project managers and developers to integrate UX/UI initiatives.

- Led UX strategy for large-scale FinTech platforms across multiple countries
- Delivered 6+ platforms and 100+ features, improving experience and revenue
- Introduced AI-driven design workflows to accelerate prototyping and validation
- Built scalable design systems and drove cross-functional collaboration
- Mentored teams, fostering a strong design culture

2. WSO2, Sri Lanka, USA (<http://www.wso2.com>), Aug/2014 – Aug/2015

Role: Senior Team Lead – User Experience Design

Led a 10-member team, developing and implementing UX/UI strategies, conducting user research, and providing creative direction for the WSO2 Product Suite used by 90+ countries around the globe.

- Led and mentored a 10-member UX/UI team delivering enterprise product experiences.
- Directed UX and visual design for the WSO2 product suite (WSO2 ESB, WSO2 API Manager, WSO2 API/App Cloud)
- Established UX processes, research, and usability testing practices
- Ensured accessibility compliance and inclusive design standards
- Collaborated cross-functionally to embed UX into the product lifecycle

3. **Navantis Inc**, Sri Lanka, Canada (<https://www.navantis.com>), Dec/2004 – Aug/2014

Role: Lead – User Experience Design/ Enterprise Architect – User Experience Design

Led a cross-border team of 12 professionals across Canadian and Sri Lankan offices, overseeing UX and UI Engineering ensuring seamless collaboration. Managed end-to-end design coordination with various teams, delivering high-quality wireframes and prototypes for web and mobile platforms. Conducted in-depth web technology research and tailored branding solutions for Microsoft products such as Microsoft SharePoint (delivered over 50+ customer intranets/extranets). Additionally, mentored and developed the UI team, fostering growth and innovation.

- Led a cross-border UX/UI Engineering team of 12 across Sri Lanka and Canada, supporting organization-wide design needs
- Coordinated design requirements with Development, QA, and Business Analysis teams
- Delivered wireframes and prototypes aligned with business and user requirements
- Designed UX and creative solutions for web and mobile applications
- Conducted R&D on web technologies and frameworks
- Delivered custom branding for Microsoft SharePoint, supporting 50+ intranet/extranet implementations

4. **Hitachi Digital Payment Solutions (former Interblocks Ltd)**, Sri Lanka (<https://www.hitachi-dps.com>), Jun/2001 – Dec/2004

Role: Web Designer

- Delivered high-fidelity visual designs for the company product suite (ATM front-ends, Payment Gateways, Core-Banking Modules, Card Management Modules).
- Collaborated with customers, product management, design, development, and quality assurance teams to set up product roadmaps and manage the delivery of creative artefacts

5. Lanka Internet Services Ltd, Sri Lanka, Jan/1998 – Jun/2001

Role: Customer Support Executive, Web Developer

- Designed websites and web application front-ends
- Developed web applications using HTML, CSS, PHP, and PERL
- Provided maintenance services for web servers and websites

CLIENT PROFILE

Canada: Microsoft Canada/USA, MSN, Bell Canada, Government of Ontario-Canada, Direct Energy, Hydro One, ORNGE, Honda, Ontario College Application Service (OCAS), CitiCall, Elections Ontario, Toronto Hydro, Worldvision, Ontario Hospital Association, Ontario Power Generation, Kingston General Hospital Canada, Canadian Real Estate Association - CREA, Atomic Energy of Canada Limited - AECL, Yukon, City of Vaughan, South East LHIN, University Health Network, Toronto Scarborough Hospital, HRP, Goodmans, Fairmont Hotels and Resorts, AgriCorp Canada.

Sri Lanka & Other: Hatton National Bank of Sri Lanka, DFCC Bank of Sri Lanka, PanAsia Bank of Sri Lanka, Pi Pay–Cambodia, AXIATA Group, Malaysia, Dialog AXIATA PLC, Sri Lanka, Vivid – Commercial Cleaning and Property Services, Australia, TIKS –Australia, DFCC Bank–Sri Lanka.

SPECIALIZED CERTIFICATIONS

- ACE – Adobe Certified Expert in Photoshop - Credential ID ADB164835 (2006)
- ACP – Adobe Certified Professional - Credential ID ADB164835 (2007)

EDUCATION

- Master of Science in Information Technology (MSc IT), Cardiff Metropolitan University UK (Distinction) [Student ID: 20314189]
- Higher Diploma in Psychology (OTHM Level 4 and Level 5), Progressing.

- Diploma in Computer Studies, Colombo Business School of Sri Lanka (1993-1994)
- High School - General Certificate of Education, Advanced Level (Economics), Nalanda College Colombo (1983-1997)
